SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT  
UNDER 37 CFR §§1.97 AND 1.98

Sir:

In accordance with 37 CFR §1.56, the references listed on the attached form PTO/SB/08 are being brought to the attention of the Examiner for consideration in connection with the examination of the above-identified patent application. A copy of each cited reference is enclosed. However, Applicants have not submitted copies of the U.S. patents or published U.S. Patent Applications cited on attached Form PTO/SB/08 pursuant to 37 CFR 1.98(a)(2)(ii).

Applicants note that Japan Publication No. 54-095589, cited as F7 on the attached form PTO/SB/08, was written in a foreign language. However, an English language abstract is provided in the reference. Applicants respectfully request that the reference be made of record and considered in the examination of the subject application.

Applicants note that French Application No. 2,849,029 and cited as F8 on the attached form PTO/SB/08, is written in a foreign language. However, an English language abstract is provided in the reference. In addition, U.S. Patent No. 7,132,570, listed as Cite No. U134 on the attached form PTO/SB/08, appears to correspond to FR 2,849,029 as the English language equivalent. Applicants respectfully request that the references be made of record and considered in the examination of the subject application.

Applicants recently received a Notice of Reasons for Rejection for an application related to this matter that is under examination in Japan. In that Notice, two of the cited references (listed as R175 and F53 on the attached Form PTO/SB/08) are in a foreign language. The Notice in the related application has been translated by a foreign agent and a copy of the original Japanese language Notice of Reasons for Rejection and the translation are provided in this Supplemental Information Disclosure Statement along with the references cited in the Notice. It is believed that the English language translation of the Japanese Notice of Reasons for Rejection provides a discussion of the foreign language documents and the relevant teachings for which the references were cited. Applicants note that a partial translation is provided for Japanese Patent Application No. JP-B 46-33588, listed as F53 on the attached form.

It is respectfully requested that the references cited on the attached form PTO/SB/08 be considered in the examination of the subject application and that their consideration be made of record.

Applicants respectfully assert that the substantive provisions of 37 CFR §§1.97 and 1.98 are met by the foregoing statement.

Respectfully submitted,

Frank C. Eisenschenk, Ph.D.
